GENERAL INFORMATION

Steel

The highest quality forging steel best suited for each particular tool is used. This steel is rolled to our specifications and closely inspected before processing.

Handles

Iron City fitted handles are carefully driven to preserve handle strength, and wedged to assure a tight fit for the life of the tool. All handles are manufactured to Iron City specifications from special grade split-grain hickory billets for exceptional strength and toughness. Chemical treatment and lacquering provide maximum protection against weather, wear, and vermin.

Warranty

Any tool bearing the Iron City trademark proving unsatisfactory, being too soft or too hard, or in any way defective will be replaced, providing the defective tool has not been heated or retempered.

Packaging

Where practical, tools ordered in standard quantities, are packed in handy cartons for protection, easy handling and storage.

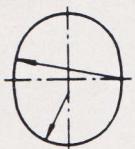

Special Tools

Prices on forged steel hand tools not listed in this catalog available on request.

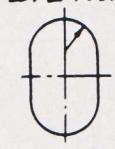

EYE SPECIFICATIONS

The eyes of Iron City Tools are forged to the shapes and dimensions prescribed in the U. S. Department of Commerce Heavy Forged Hand Tools Simplified Practice Recommendation.
